

Three-Point Contact

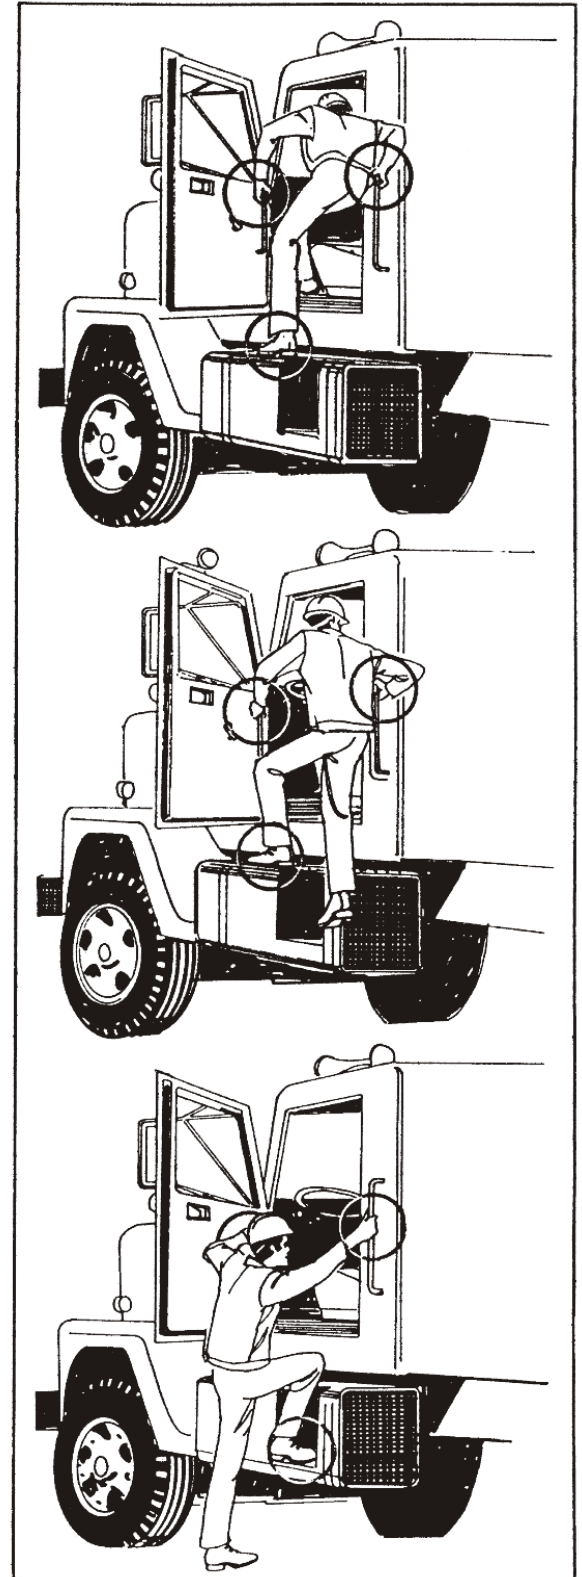

More than 1/4 of all injuries to equipment operators and truck drivers occur during mounting and dismounting

The safest way...

Safety Triangle

- When getting on or off the vehicle maintain a 3-point contact with the steps and hand holds
- Face the vehicle when either mounting or dismounting
- Never jump on or off the vehicle
- Never attempt to mount or dismount a moving vehicle
- Keep steps, footholds, handholds, traction strips, running boards free of slippery surfaces
