- 1. Request:** Complete the *Video Request Form*
- 2. Show:** Present The Video To Your Employees
- 3. Mail:** Use Enclosed MMSC Label & Original Packaging To Return.

SAFETY VIDEO LIBRARY

- 0015 Accident Investigation for Municipal Employees** (VHS 18:00) National Safety Council 1991
Deals with municipal accident investigation. Supervisors have the responsibility of investigating any workplace accident happening to employees under their supervision. Outlines steps to take in an accident investigation. Elements of investigations: How to investigate an accident site, interview those injured and witnesses.
- 0020 Accident Reporting & Investigation** (VHS 5:00) Long Island Productions 1990
Explains proper procedures for reporting an accident; observing the details of an accident.
- 0030 Back Care – Public Agency and Construction Employees** (VHS 13:00) 1988
Address safe lifting techniques and safe methods for shoveling, breaking pavement and many other tasks directly related to public agency and construction employees.
- 0050 Backhoe/Loader Operations** (VHS 8:00) Long Island Productions 1995
Because of their versatility, backhoes are one of the most common pieces on a construction site. Encourage attention to safety and correct use of personal protection equipment, equipment capabilities and limitations, inspection and maintenance checklists, operation rules including startup, driving, transportation, refueling, digging, positioning, noting utilities, moving soil, and loading dump trucks.
- 0051 Backhoe Safety** (VHS 5:00) Don Brown Productions 1992
Provides general information on the operating procedures from pre-start to shut down. Explains the operator check list and safety procedures to operate. It also discusses maintenance procedures as well as operating procedures.
- 0060 Battery Safety [Safety Bite]** (VHS 5:00) Long Island Productions 1996
Explains how batteries are constructed, the types of batteries and how to jump start batteries safely.
- 0080 Bloodborne Pathogens: Workplace Precautions** (VHS 23:00) OSHA 1991
This video explains how workers can protect themselves against occupational exposure to bloodborne pathogens, such as Hepatitis B Virus (HBV) and the Human Immunodeficiency Virus (HIV). This program is targeted primarily to health care workers and related professionals.

A basic introduction to bloodborne pathogens (Hepatitis B Virus and Human Immunodeficiency Virus) and possible occupational exposure to these viruses. Discusses how to protect you from exposure to bloodborne pathogens by reviewing proper personal protective equipment, cleanup procedures and disposing of contaminants.
- 0085 Burns, Thermal** (VHS 5:00)
Defines thermal burns and explains safe work practices to prevent thermal burns.

SAFETY VIDEO LIBRARY

- 0100 Chain Saw Safety: Safety Is No Accident** (VHS 21:00) Video Communications 1992
The video highlights: How to avoid kickback, proper use of safety tip, importance of buddy system, why you should never cut above shoulder height, safety techniques for limbing, bucking and pruning, selecting proper weight for job, personal safety equipment demonstrations, and much more.
- 0120 Chlorine Safety** (VHS 12:00)
Reveals the health hazards associated with chlorine and increases awareness of this deadly gas. Tells how to prevent exposure and proper procedures to prevent a deadly accident. Procedures including: MSDS information, testing for leaks, effective ventilation and monitoring, personal protection equipment, contingency and emergency plans, and first aid.
- 0130 Confined Space: Public Agency & Construction Industries** (VHS 15:00) Safety & Training Services 1988
Confined space entry safety tailored to special types of confined spaces found in public works. This video addresses the risks and operational safety standards for confined spaces commonly found in public works and construction such as testing, ventilation, and rescue procedures
- 0135 Confined Spaces: Training the Team** (VHS 11:00)
Discusses the role of safety in confined space entry.
- 0160 Digging Dangers 11: Hidden Hazards** (VHS 20:00) Underground Focus 1990
Presented by Mississippi One Call. Discusses the dangers of hitting an underground utility while digging as well as the consequences and how to reduce this exposure.
- 0170 Driving: Passing Power - Winning Your CDL** (VHS 120:00)
Prepares an employee for the Commercial Driver's License Tests.
- 0180a Drugs at Work [Employee Version]** (VHS 24:00)
Explains how the use of drugs in the workplace effects the user, their coworkers, innocent bystanders and the employer. Reviews why and when an employer should intervene.
- 0180b Drugs at Work [Employer Version]** (VHS 24:00)
Explains how the use of drugs in the workplace effects the user, their coworkers, innocent bystanders and the employer. Reviews why and when an employer should intervene.
- 0185 Drug Abuse: Finding Solutions** (VHS 19:00)
Employer/Employee Version: Discusses the effects of drugs in the workplace and solutions to drug abuse in the workplace.

MISSISSIPPI MUNICIPAL
SERVICE COMPANY

SAFETY VIDEO LIBRARY

- 0186 Drug Abuse: Getting Help** (VHS 23:00)
Employer/Employee Version: Discusses Employment Assistance Programs.
- 0187 Drug Testing: Handle With Care** (VHS 22:00)
Employer/Employee Version: Explains why testing/screening is necessary, general drug policies and how tests are conducted.
- 0280 Fire Prevention and Safety** (VHS 14:00)
Discusses how to prevent fires in the workplace and how to make sure correct measures are taken if a fire should occur.
- 0285 Fleet Shop Safety & Hazardous Materials** (VHS 10:00)
Explains the safety procedures when working with hazardous materials that are usually found in the automotive repair shop.
- 0290 Forklift Safety** (VHS 6:00)
Highlights safe operating rules.
- 0320 Hazard Communication** (VHS 16:00)
Familiarizes employers and employees with OSHA's hazard communication standard. Explains the role supervisors play in preparing their company for compliance with the standard.
- 0325 Hazard Communication: Right-to-Know - Industrial Facilities** (VHS 33:00)
Provides training for employees in the safe use of chemicals and hazardous materials use in industrial Facilities.
- 0340 Hazardous Materials Campus Compliance** (VHS 120:00)
- 0365 Inspections, Safety** (VHS 10:00)
- 0370 Jack Hammer Safety, Breaker/** (VHS 5:00)
Reviews proper use of jackhammers.

SAFETY VIDEO LIBRARY

0375 John Deere: It Always Happens To The Other Guy (VHS 21:00) John Deere 1974

A video using professional Hollywood stunt men in construction equipment roll-over accidents. Produced by John Deere with assistance from the National Safety Council. The video makes construction equipment operators take stock of the dangers they face every day on the job.

The tape discusses the attitude of accidents always happening to the other guy. It demonstrates what happens when general safe operating procedures are not followed. It emphasizes proper clothing, back up procedures, riders on equipment, awareness of workers around your equipment, carrying loads with front loaders, motor graders on soft ground, loading/unloading of a dozer and working on slopes. The film shows several equipment accidents.

0376 John Deere: Round Trip To Danger (VHS 21:00) John Deere 1974

This video depicts workers clearing trees. It covers the safe use of heavy equipment, such as loaders, skidders, dozers, and logging trucks. The main theme of the video is the dangers and hazards of logging operations.

A safety film for the Logging and Pulpwood Industry featuring Grapple Skidders, Cable Skidders, 4-Wheel Drive Loaders, and mechanical felling and bunching. Produced with the assistance of the American Pulpwood Association, Western Wood Producers Association, and the National Safety Council. This features a professional Hollywood stunt man.

0377 John Deere: Split Seconds, Split Lives (VHS 23:00) John Deere 1989

Illustrates real life situations where the worker was killed or injured and permanently disabled. First case is a bull-dozer operator who receives an injury and is paralyzed from the chest down. The second case describes a situation where a worker backed over a long-time friend with a compacting machine. Case three is told by the widow of the fatal victim. Next a worker describes his accident in which he started an earthmover while standing on the ground and it happened to be in gear, so it drove over him. The characters in this movie are either the accident victim or a person from their family. The details of the accidents, as well as the negative forces acting upon the family in the aftermath are very graphically depicted.

Suited for use with teens and adults involved in using machinery. Discussions by victims and family members about what it's like after the accidents.

0380 Kitchen Safety (VHS 13:00)

Reviews general hazards and appropriate safety actions in food service.

0400 Laboratory Safety: OSHA Standard (VHS 39:00)

An introduction to working safely with chemicals in the laboratory.

0420 Loss Control and Claims Management (VHS 18:00)

Discusses the benefits of a proper loss control program and claims management. Also provides ideas for a successful loss control program.

SAFETY VIDEO LIBRARY

0421 Cost Control and Claims Management (VHS)

0430 Managing Employee Safety and Health: Actively Caring For Safety (VHS)

0440 Motivation, General Safety [The New Safety Profit] (VHS 5:00)

0480 Parks: Softball & Baseball Field Maintenance (VHS 25:00)

Illustrates how to identify and correct hazardous conditions on softball and baseball fields.

0505 Protective Equipment [The New Safety Profit] (VHS 5:00)

0520 Playgrounds for Hazards, Inspecting (VHS 35:00)

Discusses playground hazard identification through evaluation and inspections of equipment and illustrates a proper maintenance program.

0530 Poisonous Plant Safety (VHS 5:00)

Helps employees recognize and identify poisonous plants. Good for public agency and landscape workers.

0550 Police Pursuit & Emergency Response (VHS 16:00)

Written and shot with law enforcement personnel on the front line, this program teaches officers how to protect themselves and their departments against civil liability lawsuits resulting from pursuit and emergency response situations.

- Knowing and following state laws and departmental polices & procedures
- How to determine if a pursuit is appropriate and how to stay in control
- Situations where an emergency response isn't legally defensible
- Successful pre-trial strategies and tactics thru documentation
- Case winning court room behaviors and considerations

Stressing the importance of timely, accurate documentation and a thorough knowledge of departmental policies and procedures, the program is designed to familiarize front line officers with the legal challenges they face anytime they are involved in pursuit and emergency response situations.

0595 Press Brake Safeguarding (VHS 10:00)

SAFETY VIDEO LIBRARY

0600 Public Officials Liability: EMPLOYMENT PRACTICES (VHS 12:00) Zomar 2002

This video begins with showing how public officials are often sued for employment practice claims. From there it moves on to discuss how to avoid litigation. Teaches them how to avoid being sued by using the Five D's: Discrimination, Documentation, Drastic Action, Discipline, & Discharge.

0601 Public Officials Liability: ZONING & LAND-USE ISSUES (VHS 11:00) Zomar

The program explains Due Process, Ad Judicatory Decisions, Discoverable Testimony, and the need to follow an entity's existing land-use regulations. Group home and adult business examples are used to show the consequences to public officials of "targeting" certain projects. Public officials are also shown how to document their decision-making and the considerations for disqualifying themselves from a zoning case.

0602 Public Officials Liability: CONDUCTING PUBLIC MEETINGS (VHS 8:00) Zomar 2002

Opening with a meeting that's becoming a shouting match, this video shows public officials how to avoid lawsuits and maintain control during controversial public meetings.

The program goes on to give public officials tips and techniques on how to correctly open, conduct, and close a public meeting. It concludes with an explanation of "Discoverable Testimony" and what public officials need consider in evaluating legal advice.

The video shows public officials how to avoid lawsuits and maintain control during controversial public meetings. The program emphasizes the use of pre-planning, workshops, and using existing procedures to maintain control of meetings.

0605 Public Officials Liability, Managing Your [Public Entities Version] (VHS 17:00)

Discusses how elected and appointed officials can avoid mistakes that can lead to liability claims and identifies best practices that will allow officials to be successful.

0607 Public & Private Liability, Avoiding (VHS 16:00, 50:00, & 27:00)

0615 Rear Loader Safety (VHS 11:00)

Reviews basic operation and pre-trip inspection of a rear loader.

0625 Safety Orientation, New Employee (VHS 23:00) Zomar Productions 2001

For fire, police, public works, and administrative personnel. The video provides an overview of typical policies on workplace violence, accident investigation, sexual harassment, infectious diseases, drugs & alcohol, smoking, safety rules & training, emergencies, workplace inspections, safe lifting, reporting injuries, and safe driving.

0626 Safety Orientation – Office (VHS 6:00)

SAFETY VIDEO LIBRARY

0630 Scaffold Safety (VHS 20:00)

A basic look at scaffolds for compliance officers.

0640 Sewer Overflows, Managing Sanitary [Public Entity Version] (VHS 20:00)

There are many factors that cause sanitary sewer overflows including: infiltration and inflow, undersized systems, pipe failures, equipment failures, sewer service connections, and deteriorating sewer systems. This 20-minute video and handbook provides in-depth information regarding prevention, inspection, and maintenance to help reduce property damage, minimize inconvenience to citizens, and lessen a public entity's liability exposure should a sanitary sewer overflow occur.

0642 Sewer: Wastewater Backup & Overflow Response (VHS 21:00)

This video is written for field personnel responding to actual backups and overflows. This program teaches step by step: why's and how's of not admitting "fault" or liability during a response; how to respond in a professional and courteous manner; and survival strategies for dealing with homeowners and residents.

0650 Shoveling Safety (VHS 5:00)

Highlights safe shoveling techniques.

0670 Solid Waste, Residential Pick-up For (VHS 13:00)

Reviews basic safety guidelines in the solid waste sector.

0680 Tree Trimming Safety (VHS 19:00)

Addresses the safety and maintenance procedures for working with chain saws and chippers, as well as general tree trimming safety.

0735 Trench Shields (VHS 12:00)

Highlights several key practices for the safe use of Trench Shields.

0740 Trench Shoring (VHS 10:00)

Reviews several common types of shoring and provides rules for their correct use.

0800 Water Treatment Plant Safety (VHS 18:00)

Reviews common hazards that exist at water treatment plants and safety precautions that must be taken to avoid injuries to employees.

0830 Welding Safety (VHS 5:00)

Reviews welding hazards, evaluation of welding hazards and workplace control measures.

Video Request Form

The Video Library is available for loan at **NO CHARGE** to **all members** of the Mississippi Municipal Service Company in both the Mississippi Municipal Workers' Compensation Group and the Mississippi Municipal Liability Plan. The safety information obtained from these safety presentations should assist in advancing safety activities within your city or organization.

Loan requests for videos should be made on this form and sent at least a **week in advance**. **Two videos** can be loaned to any one member at a time. Special arrangements can be made upon request. Requests for videos not available will be reserved in the order they are received. The videos will be loaned for about **3 weeks** from the date mailed. Our mailing label will be provided in the package with your requested videos. The only expense is the return postage used to mail the video back to MMSC. **All you pay is the return postage!** Just stick our mailing label on the package when you are finished, add postage, and mail.
